Atmospheric Research, 30 (1993) 323–324
Elsevier Science Publishers B.V., Amsterdam

Contents Volume 30, 1993

Analysis of different models for atmospheric correction of Meteosat infrared images. A new approach
A.M. Pérez, P. Illera and J.L. Casanova 1
Simulation in order to choose a fitting method for extreme rainfall data
N.T.P. Thao, Ph. Bois and J.A. Villasenor 13
Sizes of cloud droplets and cloud droplet residues near stratus cloud base
H. Akagawa and K. Okada 37
Instability indices for severe weather forecasting in West Africa
K. Oduro-Afriyie and D.O. Adefolalu 51

Book Reviews 69

Computations of the vertical motion and atmospheric energetics using omega and thermodynamic equations for a case study of a depression (September 1985)
R.K. Singh and U.S. Singh 75
Water supersaturation in convective clouds
N. Fukuta 105
Organization of cloud and precipitation in an Alberta storm
G.W. Reuter and C.D. Nguyen 127
Atmospheric ozone concentration at Athens, Greece. Part I: Surface ozone and its relationship with meteorological parameters
C. Varotsos, M. Varinou and P. Kalabokas 143
Atmospheric ozone concentration at Athens, Greece. Part II: Vertical ozone distribution in the troposphere
C. Varotsos , P. Kalabokas and G. Chronopoulos 151
Sensitivity of monsoon rainfall predictions to initialization procedures
K. Alapaty, R.V. Madala and S. Raman 157

Book Reviews 171

In Memoriam Gaston Grenet
B. Vonnegut 181
Correlation of the atmospheric extinction coefficient with the concentration of particulate matter for measurements in a polluted urban area
E.-M. Uhlig and W.v. Hoyningen-Huene 181
A parameterization of cloud droplet nucleation part I: single aerosol type
S.J. Ghan, C.C. Chuang and J.E. Penner 197
Carbon cycle variations on the Earth's surface during the last two glacial cycles
J. Servant 223
Atmospheric correction and determination of sea surface temperature in midlatitudes from NOAA-AVHRR data
C. Coll, V. Caselles and E. Valor 233
Estimation of effective roughness length for heat and momentum from FIFE data
A.K. Betts and A.C.M. Beljaars 251
Size dependent single particle and chemical bulk analysis of droplets and interstitial particles in an orographic cloud
R. Gieray, G. Lammel, G. Metzig and P. Wieser 263

0169-8095/93/$06.00 © 1993 Elsevier Science Publishers B.V. All rights reserved.

Coastal effects in the Eastern Mediterranean as seen from experiments using a cloud ensemble model with detailed description of warm and ice microphysical processes
A.P. Khain, D. Rosenveld and I. Sednev 295

Announcement 321
